

French Film Festival UK

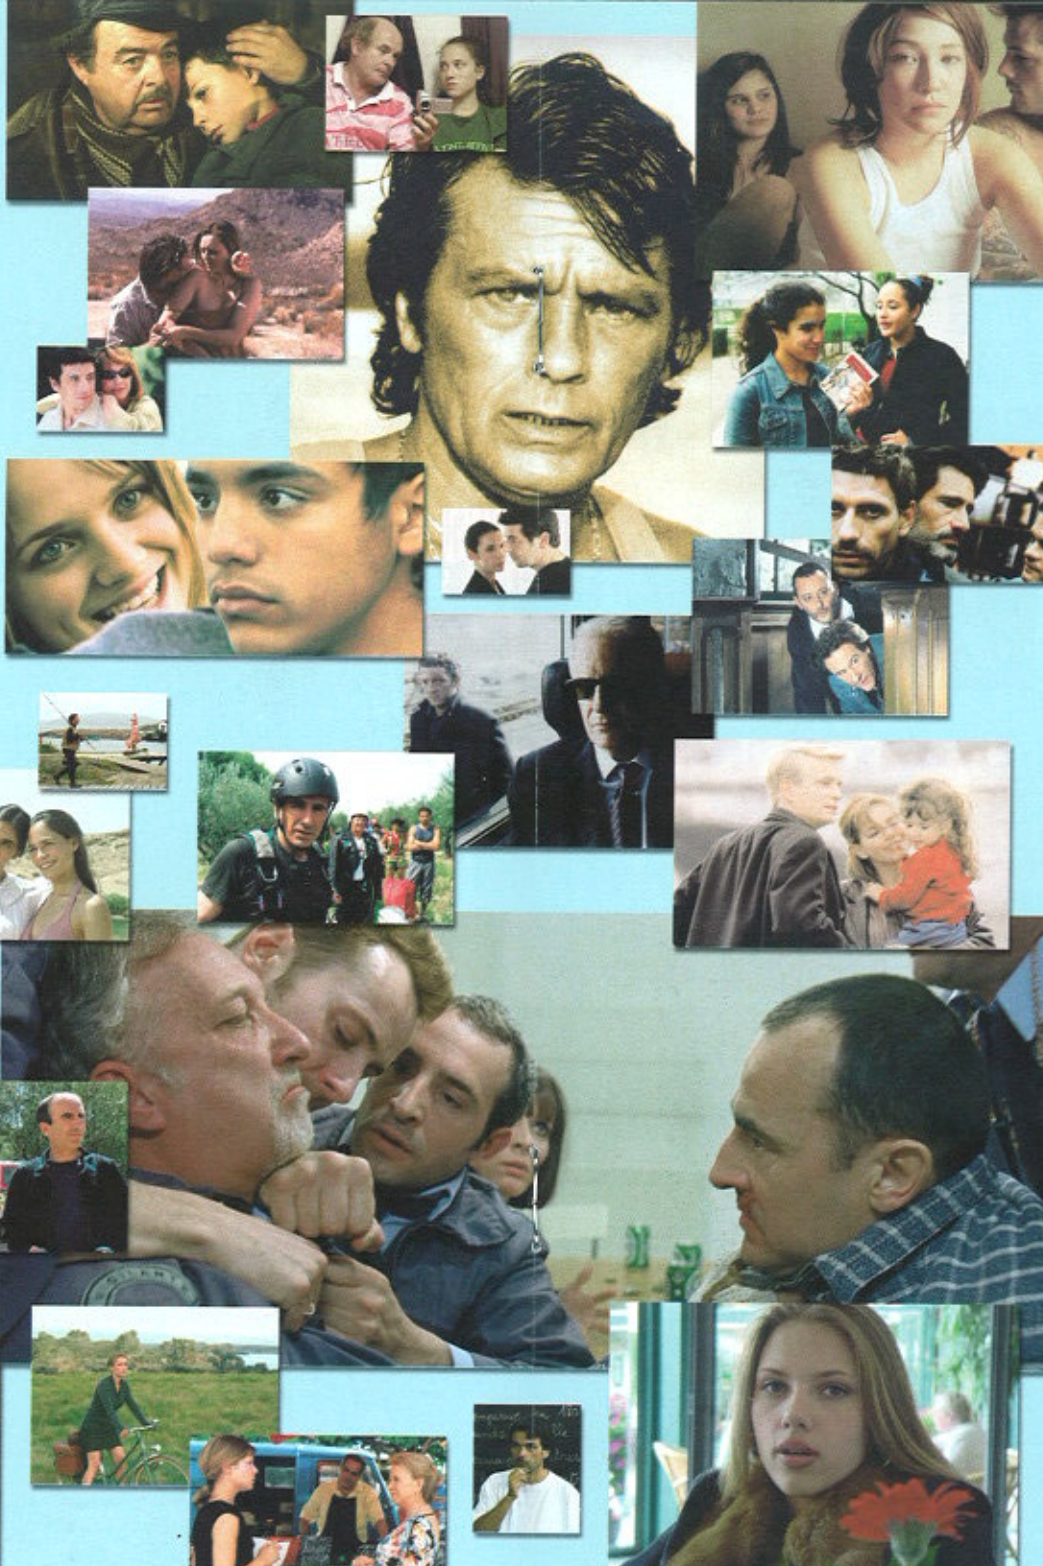

Welcome to the thirteenth edition of the French Film Festival UK at GFT. Over the 14 days of the festival we are delighted to present a selection of some of the best new French films that we've seen during the past year.

In making the final choice, the GFT and the Board of the FFF aim to include a broad range of work. Therefore, the festival combines the mainstream with the challenging, the newcomers with the established names, and the innovative with the classic.

In this year's line-up you will find new films in the Panorama section by Benoit Jacquot, Tony Gatlif, Dominique Cabrera (Berlin winner **Folle embellie**), Francois Dupeyron, Jean-Pierre Ameris and Frances Veber's new comedy **Tais-Toi!** with Jean Reno and Gerard Depardieu. Some of the most exciting work is in the New Waves category where we introduce such fresh talents as Eleanore Fauche (multi-award winning **Brodeuses**), Christophe Barratier (with the splendid **Les choristes**), Gael Morel, Thomas Vincent's excellent thriller **Je suis un assassin** and more. There are films for children and young people, documentaries, a new strand of work from Quebec and our retrospective this year pays tribute to cinema icon Alain Delon. Many of these films will only come your way once, so make a special effort to catch them while you can.

Vive le cinema!
